

Date Prepared 05/2001  
Revised 4/2004 P Watt  
Prepared By Carla McGreevy

**BMP#**      MFT #1

**TITLE:**      COOLANT COLLECTION AND DISPOSAL

**Regulatory Citation:** 6 NYCRR Part 360-14 and 374-2

**Applicability:** Coolant used in room machining processes

**Purpose:** Proper collection and disposal of coolant.

**Person or  
Department Responsible:** MFT Department Laboratory Technician

**Schedule:** as needed

**Procedures:** When coolants are removed from any MFT machine, the MFT Lab Technician will place the coolant into the drum labeled "Waste Coolant" and keep covered. Once the drum is 80% full, the Technician will contact the Coordinator of EHS for a pick up by the approved vendor.

The Technician will sign the receipt of coolant pickup and forward to the Coordinator of EHS.

**Record keeping:** Waste receipt.

**Record Location:** Original Physical Plant office.

**Current vendor:**      Advanced Liquid Recycling, Meriden, Ct.

**Contact:**      MFT Department Technician (629-7377)  
                         Coordinator of Environmental, Health and Safety (629-7163)
