Our Team

PRESIDENT ROGER A. RAMSAMMY

Dr. Ramsammy joined Hudson Valley Community College as president in 2018. He is the former:

- President of Miami Dade College's West Campus and Provost
- Chief Academic Officer at Northern Virginia Community College Manassas Campus
- Dean of Academic Affairs, Associate Dean of STEM and Professor of Genetics, Anatomy & Physiology, and Microbiology at Palm Beach State College
- Post-Doctoral Fellow at Georgetown University Lombardi Cancer Center

Dr. Ramsammy has earned numerous honors, such as:

- The Virginia Governor's award for creating the most innovative STEM program that placed over 40K students in the STEM pipeline
- Florida Association of Community Colleges prestigious Professor of the Year award
- Palm Beach State College Professor of the Year award (three times)
- Florida Atlantic University & Broward College Adjunct Professor of the Year award
- United Nations South America Educator award
- Martin Luther King, Jr. Cultural Foundation Outstanding Educator award
- Awarded an honorary Doctor of Research in Science from Isaac Newton University
- A member of the New York State Reimagine Education Team
- A member of the Board of Directors of the World Federation of Colleges and Polytechnics

Dr. Ramsammy served on two of President Obama's special initiative teams focused on STEM opportunity programs as well as STEM education for women and minorities. He also was among the first scientists selected by Carnegie Mellon University, the Gates Foundation and Obama Initiative to create an Anatomy and Physiology online textbook.

Dr. Ramsammy earned a Ph.D. in Molecular Biology and a master's degree in Genetics from Howard University. He holds a bachelor's degree in Pre-Med Biology from the University of the DC.

Our Team

KATE BETTER

- Kate Better is the chief operating officer and was hired in 2023. Prior to her new position, she served as director of development and external affairs at KIPP Capital Region Public Charter Schools, and worked in leadership positions for Congressman Chris Gibson and Rensselaer County Executive Steve McLaughlin.
- In her new role, Better will manage and organize activities and events of the President, lead the college's executive team meetings, serve as the liaison to the college's Board of Trustees and provide leadership to the college's Foundation and Global Education Departments.
- She earned a bachelor's degree from Siena College and a master's degree from the University at Albany.

DR. JAY DEITCHMAN

Dr. Deitchman, with more than twenty years of experience in the field of international education, is the director of global initiatives and has worked at the college since 2003.

- His doctoral dissertation and research expertise focus on international student adjustment.
- Dr. Deitchman is passionate about international education and globalization, and greatly enjoys working with international students and their families, as well as international partners.
- He has held leadership positions and served on executive boards for several local and state organizations, including: Albany-Tula Alliance; NAFSA: Association of International Educators; State University of New York College Admissions Professionals; Study New York, Inc.; Leatherstocking Council, Boy Scouts of America; and the International Center of the Capital Region.
- Dr. Deitchman is proud to have earned his bachelor's, master's and doctoral degrees from State University of New York institutions.

CUSTOMIZED CREDITED AND NON-CREDITED PROGRAMS

Through the Office of Community and Professional Education, the college can develop credited and non-credited programs, to address the changing needs of our local and global community. For example, the college remotely delivers non-credit English as a Second Language instruction, to students and teachers, both inside and outside the United States.

Further, the Office of Community and Professional Education provides professional development and training for individuals, businesses and organizations, with the ability to create customized programs to meet specific training needs. This includes an on-campus, five-day intensive Electric Vehicle Train-the-Trainer Program that was developed for automotive instructors and students from Central America. Individuals from Costa Rica, Ecuador, El Salvador, and Colombia have participated in the Program.

DISTANCE LEARNING OPPORTUNITIES

The Global Classroom High School Program allows high school students outside of the United States, to take college-level courses, at a reduced cost, for which they will receive college credit upon their successful completion.

- All of the courses are taught asynchronously online, enabling students to access all of the course materials, assignments, lectures and tests at any time, when it is convenient for them.
- All of the courses use either free Open Educational Resources, which will be available online, or materials with free digital access. Therefore, students will not need to purchase or receive course materials!
- For additional information regarding the Global Classroom High School Program, including links to the Student Registration Information Form, please visit: www.hvcc.edu/programs/highschool/global-classroom
