BMP Automotive #11

TITLE: GREASE-OFF TANK MAINTENANCE & DISPOSAL

Regulatory Citation: 40 CFR 261.3(a)(iii) and 6NYCRR Part 360-14

Applicability: Grease-Off Tank located in Auto Engines Lab, Rm146

Purpose: Proper procedure to maintain grease-off tank and dispose of waste

Department Responsible: Automotive Department Chair (629-7272)

Schedule: As needed

Procedures: The Automotive Department will collect the grease off tank waste in a drum when it can no longer be used in the machine. The drum will be stored on the spill pallet in the lab and labeled "Grease off tank waste." Do not mix this waste with used oil or antifreeze.

The Automotive Technician will notify the Director of EHS when the drum is ready for pick up. Arrangements will be made for recycling by the College's approved vendor

Current vendor: Sheldon Oil

Record keeping: shipping record, MSDS for cleaner

Record Location: EHS environmental files

Contact: Automotive Technician (629-7190)
Director of Environmental, Health and Safety (629-7163)
